NGT 25M SPOOL OF 20LB FLUOROCARBON

NGT Fluorocarbon makes a great (sinking) snag leader, because of its very high abrasion resistance. It is also ideal hooklink material for making your own stiff rigs. Rigs tied with NGT Fluorocarbon are hard for a carp to see or eject, after it has taken the bait. Made of premium Fluorocarbon material from Japan, it is easy to tie and the breaking strength is surprisingly high.
